

Healthy Macaroni and Cheese

Creamy Comfort Food Made a Little Lighter

Few dishes bring back childhood memories quite like macaroni and cheese.

It's the ultimate comfort food—warm, creamy, cheesy, and satisfying. Whether it reminds you of family dinners, holiday gatherings, or cozy evenings at home, macaroni and cheese has earned its place as a favorite in many households.

Traditional recipes, however, are often loaded with heavy cream, large amounts of butter, and processed cheese, making them high in saturated fat and calories.

This healthier version delivers the creamy texture and rich cheesy flavor you love while using simple, wholesome ingredients. By combining real sharp cheddar cheese with Greek yogurt and reduced-fat milk, you get a velvety sauce that's packed with flavor, protein, and calcium—without sacrificing comfort.

Healthy eating doesn't mean giving up your favorite foods. Sometimes, a few smart ingredient swaps can transform a classic into a meal you can enjoy more often.

☐☐☐ Instructions

1☐☐ Cook the Pasta

Bring a large pot of water to a boil and add the salt.

Cook the whole wheat macaroni according to the package directions until just al dente.

Drain and set aside.

2☐☐ Prepare the Cheese Sauce

In a large saucepan over medium heat, melt the butter with the olive oil.

Whisk in the whole wheat flour and cook for about 1 minute until smooth.

Slowly pour in the milk while whisking continuously to prevent lumps.

Cook for 3–5 minutes, stirring frequently, until the sauce begins to thicken.

3☐☐ Add the Flavor

Reduce the heat to low.

Whisk in the Dijon mustard, garlic powder, onion powder, smoked paprika, salt, and black pepper.

Remove the saucepan from the heat.

Stir in the Greek yogurt until smooth.

Gradually add the cheddar cheese, mozzarella cheese, and Parmesan cheese, stirring until fully melted into a creamy sauce.

4▯▯ Combine

Add the cooked macaroni to the cheese sauce.

Gently stir until every piece of pasta is coated in the creamy cheese sauce.

At this point, your healthy macaroni and cheese is ready to serve if you prefer it extra creamy.

5▯▯ Optional Baked Finish

If you enjoy a crispy, golden topping, continue with this step.

Preheat the oven to **375°F (190°C)**.

Transfer the macaroni and cheese to a lightly greased baking dish.

In a small bowl, combine:

- Whole wheat panko breadcrumbs
- Parmesan cheese
- Olive oil

Sprinkle the topping evenly over the macaroni and cheese.

Bake for **10–12 minutes**, or until the topping is lightly golden and crispy.

6▯▯ Serve

If you skipped the baking step, serve immediately while hot and creamy.

If you baked it, allow it to rest for about **5 minutes** before serving.

Garnish with chopped fresh parsley if desired.
